

Wine installation - Ubuntu 18.04 bionic

This tutorial is based on : [winehq](#)

And this solution : [askubuntu Q&A](#)

Step by step

Run this command to add intel architecture to dpkg :

```
sudo dpkg --add-architecture i386
```

Run these commands to add wine's key :

```
wget -nc https://dl.winehq.org/wine-builds/winehq.key  
sudo apt-key add winehq.key
```

Run this command to add wine's repository :

```
sudo add-apt-repository 'deb https://dl.winehq.org/wine-builds/ubuntu/  
bionic main'
```

Run these commands to libaudio dependency :

```
wget  
https://download.opensuse.org/repositories/Emulators:/Wine:/Debian/xUbuntu  
_18.04/amd64/libaudio0_19.07-0~bionic_amd64.deb  
wget  
https://download.opensuse.org/repositories/Emulators:/Wine:/Debian/xUbuntu  
_18.04/i386/libaudio0_19.07-0~bionic_i386.deb  
sudo dpkg -i libaudio0_19.07-0~bionic_amd64.deb libaudio0_19.07-  
0~bionic_i386.deb
```

Run this command to update your modifications :

```
sudo apt update
```

Run this command to finally install the package :

```
sudo apt install --install-recommends winehq-stable
```
